## **Overview**

### **Purpose**

The purpose of this project is to build a web page with a creative and pleasant theme where we can put into practice the acquired knowledge, respect the Zen Garden premise, create styles without modifying the HTML code and create an atomic design.

### **Audience**

The project will be evaluated by the instructor.

## **Style Guide**

### **Theme**

Machinery

The selected theme is related to machinery; each component of our atomic design is based on the chosen theme.
